

## MEMORANDUM

**TO:** Mayor and City Council

**FROM:** Warren W. Struss, Director  
Parks and Recreation Department

**DATE:** August 7, 2007

**SUBJECT:** Postponement of Walnut Creek Greenbelt Access Agenda Item

The July 26, 2007 City Council agenda included an item considering the approval of an ordinance rejecting the 1985 proposed dedication of public right-of-way and accepting dedication of additional parkland easements and alternate right-of-way access and parking facilities for the Walnut Creek Greenbelt. Survey field notes, required for acceptance of a parkland easement, were not provided by the donor so the Council postponed the item until the August 9, 2007 meeting.

On Friday August 3, the donor advised me that he needs to resolve an additional issue regarding title to the right-of-way before Council takes action to reject it. Therefore I am requesting (the applicant concurs in the request) the item be postponed until the August 23, 2007 agenda to allow for preparation of the field notes and resolution of the title issue.

Please contact me if you require additional information.
